

Converting ‘LaTeX’ ‘R Journal’ Articles into ‘RJ-web-articles’

by *Abhishek Ulayil*

Abstract An abstract of less than 150 words.

Introduction

Explain the purpose of the work, some background on the `rjournal/rjtools`[DC],

Background

LaTeX, Regex, pandoc building blocks of the packages, methods used in them [MOW]

texor package converting LaTeX to Rmarkdown

Also mention the hard parts

Lua Filters with pandoc

A lot of details about different components of texor

rebib package working out bibliography

getting started

Examples/ getting started / usage and so on

Summary

Acknowledgments

pandoc “TODO : Later”

supplementary Materials

github repos for the packages, rjtools
